CREW 72 HOURS IN OPEN BOAT

Bark Marion C's Survivors Are Brought to Halifax.

Halifax, N. S., Nov. 12.—The captain and crew of the British bark Marion C. arrived here today on the steamer Furman from New York.

The Marion C., which was owned in this city, was bound from Bridgewater, N. S., for New York, with a cargo of hemlock lumber. She had put into La-Have and on Saturday last she sailed from that port. During the day she encountered the gale and on Monday forenoon, when the bark was 100 miles west of Cape Sable, the captain and crew took to the ship's boat. For 72 hours the 20-foot open boat was tossed about in the open sea.

The survivors are in an exhausted condition and their feet are badly swollen. One was sent to the hospital.

Forty-fourth Wedding Anniversary.

Rutland, Nov. 12.—Mr. and Mrs. Charles W. Phelps, of Dorset, celebrated their fifty-fourth wedding anniversary Saturday. Mr. Phelps is 61 years old and Mrs. Phelps 74. They have lived in Dorset since their marriage. Mr. and Mrs. William Root, of East Rupert, who witnessed the Phelps marriage celebrated their fifty-sixth anniversary October 20.

HARVARD TRIMS INDIANS

Dartmouth Wins From Amherst by Field Goal

BROWN TROUBLES YALE

Princeton Defeats West Point in a Fast and Well Played Game—Other Games Played on Saturday.

Saturday's football games contained many surprises. In one of the most spectacular games ever played on the Harvard grounds the Carlisle Indians, outwitted but not outplayed, held the Crimson team down to a 3 to 0 score at the Stadium. Fully 30,000 enthusiastic spectators cheered the teams and watched with delight the clean open plays and the spectacular movements which characterized the game. The Crimson score came in the second half and was the result of a track play. On a double pass, after the Indians expected a punt, Wendell drove through the center, close to the sidelines, and covered 48 yards before being downed within striking distance of Carlisle's goal. Five smashes through the left side of the Indian line advanced the ball slowly and surely until Wendell was shoved across. The Indian backs played their Harvard opponents to a standstill, but their trick plays, which were eagerly looked for, were very little in evidence.

Dartmouth Defeats Amherst.

Dartmouth defeated Amherst at Hanover, N. H., by a score of 4 to 0, in a game filled with spectacular plays. Although Dartmouth in the second half frequently came within striking distance of the Amherst goal, there were only three minutes left to play when Glaze, after missing twice, on the third try, kicked the field goal from the 31-yard line. In the first half Amherst looked like a winner, for Hubbard, on 10-yard runs, repeatedly carried the ball down toward Dartmouth's goal. Line Dartmouth braced each time, and falling to gain, would punt out of danger. In the first part of the opening half Hubbard tried a goal from the 50-yard line, but the ball bounded along the ground, and Glaze fell on it on his 10-yard line. Neither side could gain consistently, but Amherst outplayed Yale team for almost the whole of the first half, sensational work marking the opening moments of the game. Brown started with a rush. Yale's defense was crushed, the line being unable to withstand the attack. Abbott and Forbes, the Yale ends, were boxed repeatedly, and Brown interference swept past them for gain after gain. Brown gained on first downs, and once rushed the ball to Yale's 20-yard line, only to lose it on a fumble of a forward pass. Mayhew, Schwartz and McDonald, the Brown backs, played like clockwork, presenting an interference which it was almost impossible to break up. The blue team played almost entirely on the defensive during the first half, depending on Veeber's punting to keep the ball out of dangerous territory. In the second half Yale showed better form, and while the forward pass was not once used, and no trick plays were in evidence, Brown's offense was held in better check, and the blue began to play more aggressive ball. A touchdown came in the first three minutes of play. Long runs by Jones and Knox placed the ball on Brown's 10-yard line, Morse and Knox shortened the distance on line plunges by six yards, and Forbes was jammed through Westervelt and Kirley for a touchdown. The ball was brought out directly in front of the goal posts, but Knox failed to kick the goal.

Yales Scoreless in First Half.

Speed, staying and rallying power won at Yale field a victory for the Yale eleven over Brown Saturday at New Haven in one of the hardest football battles of the season. The final score was 5 to 0. Yale was unable to cross the Brown line until the second half, and Knox missed an easy goal. The visitors played all around the Yale team for almost the whole of the first half, sensational work marking the opening moments of the game. Brown started with a rush. Yale's defense was crushed, the line being unable to withstand the attack. Abbott and Forbes, the Yale ends, were boxed repeatedly, and Brown interference swept past them for gain after gain. Brown gained on first downs, and once rushed the ball to Yale's 20-yard line, only to lose it on a fumble of a forward pass. Mayhew, Schwartz and McDonald, the Brown backs, played like clockwork, presenting an interference which it was almost impossible to break up. The blue team played almost entirely on the defensive during the first half, depending on Veeber's punting to keep the ball out of dangerous territory. In the second half Yale showed better form, and while the forward pass was not once used, and no trick plays were in evidence, Brown's offense was held in better check, and the blue began to play more aggressive ball. A touchdown came in the first three minutes of play. Long runs by Jones and Knox placed the ball on Brown's 10-yard line, Morse and Knox shortened the distance on line plunges by six yards, and Forbes was jammed through Westervelt and Kirley for a touchdown. The ball was brought out directly in front of the goal posts, but Knox failed to kick the goal.

Princeton Defeats West Point.

Princeton defeated West Point at West Point Saturday afternoon, 8 to 0, scoring twice in the first half through the splendid kicking of Harlan. The feature of the contest was a pretty dropkick made by Harlan. The other four points were made on a goal from placement by the same player. After the first half the Princetonians did not appear to exert themselves, and gave the impression of saving their men in participation of the game with Yale next Saturday at Princeton. Several times during the second half it looked as if the collegians could have sent the ball over the line for touchdowns, had the score made necessary.

Vermont 17, N. R. State 5.

Manchester, N. H., Nov. 12.—The university of Vermont and New Hampshire State college football teams played one of the finest games ever seen in Manchester at Varick park Saturday afternoon in the presence of nearly 2,000 people. Vermont winning, 17 to 5.

Middlebury 22, Norwich 5.

Middlebury, Nov. 12.—In a swift, snappy game, Middlebury college won

Over 5,000 Druggists Are recommending VINOL as the best cod liver preparation they ever sold.

That's because Vinol contains all the medicinal elements of cod liver oil, but the useless oil has been eliminated and tonic iron added.

That's why Vinol restores health and creates strength for delicate children, feeble old people, weak and sickly persons and convalescents.

Money back if it fails.

REVOLVERS TO PROTECT REFEREE

Bucknell-Virginia "Tech" Game Ends in Riot at Norfolk.

Norfolk, Va., Nov. 12.—The Bucknell-Virginia polytechnic institute football game here Saturday broke up in a riot. The police were forced to draw their revolvers to save Referee Suter from a crowd of Virginia polytechnic institute students and fans.

Football Player Killed in Game.

In a football game at Fort Shaw, near Great Falls, Mont., Saturday, between the Great Falls team and the Fort Shaw Indian team, James Curfio, fullback for the Great Falls team, was killed in a scrimmage. Internal injuries, including about death. Curfio was 25 years old and a native of Syracuse, N. Y., where his parents live.

SIX SCHOOLS IN IT.

Interscholastic Basket Ball League Perfected at St. Johnsbury.

Montpelier, Nov. 12.—Representatives of the interscholastic basket ball league met here Saturday afternoon to adopt a constitution and by-laws, perfect an organization and consider a schedule. After eight amendments, the constitution and by-laws presented at a former meeting was adopted.

Officers were elected as follows: Harry Heath, Goddard seminary, Barre, president; George Tuttle, Burlington high school, vice president; Harold Jones, Montpelier high school, secretary; E. A. Hamilton, Montpelier seminary, treasurer.

People's academy at Morrisville and St. Johnsbury academy were represented at the conference. According to the eligibility rules, which were adopted, players on the basket ball teams must be registered in school before the beginning of the second week of the winter term, and must be able to maintain the standard of passing in the school, which they are enrolled. Another rule provides that principals must certify to the eligibility of players.

A schedule to include teams from the Burlington high school, People's academy, St. Johnsbury academy, Montpelier high, Goddard and Montpelier seminaries, was partially arranged, and will be completed in a few days.

CUT OUT DUPLICATIONS.

This Prisoner Was Good For Double Fees.

Rutland, Nov. 12.—One of the most striking cases on record of double fees in committing a prisoner to the house of correction, has just been brought to the attention of Atty.-Gen. C. C. Pitts by Superintendent D. L. Morgan.

One Clinton Adams, sentenced from Colchester on two charges of breach of the peace, the second of which was brought here by constable J. D. Vandow, who had a separate commitment paper in each case. The papers were exact duplicates, and the prisoner was charged forty-eight hours' board, six meals in one day, and twice the distance really travelled. Attorney-General Pitts cut out the duplications.

Piles Cured in 6 to 14 Days.

PAZO OINTMENT is guaranteed to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days or money refunded. 50c.

Found Ring in Potato.

A wedding ring lost over two months ago has just been found imbedded in a large potato by Mrs. John Glubka, residing near Little Falls, Minn. Early in September, while digging potatoes, she lost from her hand a gold band wedding ring. A few weeks later Mrs. Glubka brought a load of potatoes to Little Falls and sold them. A portion of the load was purchased by Mrs. Carl Bolander, who, while preparing some of the potatoes for cooking, discovered imbedded in a large tuber a gold band ring. She had heard of Mrs. Glubka's loss and at once notified her that her much-prized ring had been recovered.

ERIE ROAD MEN MAY STRIKE

The Company Refused Requests for Increase

WANT SHORTER HOURS

Unsuccessful Conference With President Underwood — Poll of Employees Will Be Taken by the Brotherhood.

New York, Nov. 12.—President Underwood of the Erie railroad company Saturday refused demands for a reduction of working hours by the firemen employed on that road. A poll of the Erie firemen will be taken by the officers to determine whether they will strike. The information that a poll would be taken was obtained from officials of the firemen's union, yesterday afternoon, however, the Erie railroad company gave out the following statement:

The published stories that Erie employees were contemplating a strike have no foundation in fact, according to officials of the Erie railroad. "It is true that we are in conference with the men," said an Erie official today, "but we confer at least once a year. The men have matters requiring adjustment and the company meets them on the most friendly footing. Just now a number of questions are being discussed, including hours, wages, runs, etc. So far, absolutely nothing has developed that would indicate, in the slightest degree, that trouble would ensue. None of the Erie officers or men is discussing the situation from a strike standpoint.

The firemen's demands are said to be equivalent to an increase of 10 per cent in wages. Seventeen hundred men, \$125,000 to \$150,000.

Grand Master John J. Hannehan of the brotherhood of railroad firemen told Pressident Underwood at yesterday's conference that the Erie pays its firemen less than any other three competing roads between New York and Chicago—the New York Central, Pennsylvania and Baltimore and Ohio. After the unsuccessful conclusion of the conference the firemen's committee met at the Broadway Central hotel and decided that negotiations with the Erie officials should cease. Some of the members of the committee said the a strike appeared to be imminent. Mr. Hannehan last night in speaking of the vote to be taken as to whether a strike shall be declared said: "There are 1600 locomotive firemen on the Erie in the brotherhood, besides 675 locomotive engineers who retain their franchise cards and are members of the firemen's cards as well as the engineer's brotherhood. If the men do not back down I shall announce a strike and the men will quit. Certainly, the 675 engineers will quit too."

The members of the Erie firemen's committee, whose negotiations with the company's officials failed yesterday, left for their homes last night. They will collect the ballots, it was said, which are to be cast on the question of a strike.

\$35,000 FIRE.

Blaze of Unknown Origin in Boston Sunday Morning.

Boston, Nov. 12.—Fire of unknown origin broke out in the five story building occupied by McKenney and Waterbury, 100 State street, yesterday. The fire, which started in the rear of the building, and Congress streets, shortly after midnight yesterday, and before the flames were under control the upper stories were gutted, causing a loss of more than \$35,000.

The blaze was difficult to locate because of dense smoke. Suddenly the flames broke through the roof and top windows and the firemen had a hard battle.

A second later the flames burst through the roof in several places, illuminating the entire neighborhood.

It was then that the fire began to assume both serious and spectacular proportions.

The cause of the fire is unknown, but it is thought it may have had its origin from spontaneous combustion.

Young Man!—Here's a Chance!

Where are all the young men who like to work in the fresh air, tramp alfalfa, and who are not afraid of cold or hard outdoor work, says Guy E. Mitchell in his article "A New Outdoor Profession," in Technical World Magazine for November. Here Uncle Sam is willing to pay high salaries to young fellows who can qualify for positions in the government's brand new profession, forestry, but he cannot find enough men who can do the work. In President McKinley's first administration, \$30,000 was the annual appropriation for the forestry service; today some \$2,000,000 is being annually spent in protecting and preserving our forests. It is a new profession, a new field, in this country, and has developed even to what it is today almost entirely within the past eight or ten years. Who ever gave you trees a thought ten or twelve years ago? Trees? Why, they were things to be cut down, gotten out of the way. Now lumbermen, paper manufacturers, railroads, telephone companies, farmers, even, are beginning to realize the importance of the question, What will become of our forests? Forestry is a field which is widening every year. Each year Congress increases its appropriation for the cause. Where ten years ago there were some 14 men connected with the service, there are now some over 1,400 men employed in the bureau of forestry. Here is an opportunity for young men, and many colleges are offering special courses in this work so that their students may qualify by competitive examination. The future of the profession is assured, but where are the men?

Nobody Teaches 'Em to Come In.

There really seems to be something wrong with the higher education when you see a lot of college boys and girls sitting out on an open grandstand watching a game of football in the rain. —Somerville Journal.

BURNED BY M.D.'S TO SAVE, SHE'S DEAD

Woman Under Surgeons' Hands Would Have Died Anyway, Declares Official.

Waterbury, Conn., Nov. 12.—Mrs. Sophia Wofmeister, wife of a Hamden farmer, who was buried Saturday, came to her death, it is alleged, from burns applied by surgeons to keep up the woman's temperature while undergoing an operation. This fact came to light on Saturday with the filing of a death certificate by Medical Examiner Bartlett giving the cause of death as "accidental burning."

Mrs. Wofmeister was operated on at a New Haven hospital. While on the operating table and completely under the influence of an anesthetic, she sprang up crying out that she had been burned in the back. The surgeons forced her back and another her screams with the ether cone. The operation was successful but on Tuesday the woman died.

Medical Examiner Bartlett will say little about the case beyond the statement that the operating surgeons found it absolutely impossible to keep up the woman's temperature, and, therefore, applied heat. They produced burns and subsequent shock.

He declares that without the application of heat the woman would have died on the operating table and that her death on Tuesday was absolutely preventable.

The husband threatens legal action.

5,000 MORE VOTES FOR BRUCE.

May Be Enough to Elect Him—Alleged Find in Kings County.

New York, Nov. 12.—John E. Smith, secretary of the Kings county, N. Y., Republican campaign committee, said Saturday that about 5,000 additional votes had been discovered for M. Lim Bruce, Republican candidate for lieutenant governor. He said: "According to the reports this morning, Mr. Chanler's plurality throughout the state was in the neighborhood of 1,200. These additional votes in Kings county will undoubtedly elect Bruce lieutenant governor."

ADMITS HE THREW BOMB AT CAPTAIN OF POLICE

Confesses That He Entered the Terrorist Party as a Spy, But Expatriated His Treachery.

St. Petersburg, Nov. 12.—The man Schekter, who threw the bomb at Police Capt. Samsonoff, of Bialystok, one of the terrorist acts causing the Jewish massacre there, was convicted yesterday and sentenced to ten years at hard labor.

The prisoner, who is a mere youth, testified that he entered the terrorist organization as a spy, at the instance of the police in 1904, and served faithfully for two years.

He became converted to the theories of the revolutionists, and determined to expiate his treachery by the killing of Captain Samsonoff.

CULLION FOR REVISION.

Illinois Senator Wants Extra Session to Cut Tariff Schedules.

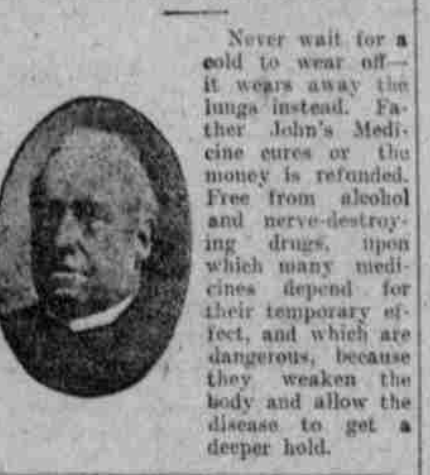

Washington, D. C., Nov. 12.—Senator Cullion of Illinois, one of the most influential members of the upper house of Congress, said today in an interview that unless there was speedy and effective tariff revision by the Republicans, the people of the country were likely to distrust the Democratic party with the work. He also said that President Roosevelt should call Congress together in extra session immediately after March 4, 1907, for the purpose of taking up this question.

"The result of the elections, to my mind, means that the people are determined that there shall be revision," continued Mr. Cullion. "I believe that the President will heed the warning. To what extent revision should be carried I am not now in a position to say, but there must be an equitable adjustment of schedules. The work cannot, of course, be undertaken at the coming short session."

Start and Finish.

Some are born without character, some throw it off, and some get rich quick.—Puck.

SAVING LIVES

BY REV. FATHER PONTUR

How a Young Woman of His Parish Was Cured of Consumption by Father John's Medicine.

Writing from Lafarguville, N. Y., the Rev. Fr. Joseph Pontur of St. Joseph's parish said: "One of my parishioners, almost dependent of ever getting cured, given up by the doctors as a consumptive, upon my firm advice is using Father John's Medicine and since has been constantly improving to the great joy of her parents and friends."

Again, four months later, Rev. Fr. Pontur writes: "The young woman referred to in my former letter, who was given up by all the doctors as a consumptive, continues to improve wonderfully by using Father John's Medicine."

NOTE.—If your druggist does not have it, send \$1 for a large bottle, express prepaid, to Father John's Medicine, Lowell, Mass.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, her advice has been freely given to sick women.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; this has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

Following we publish two letters from a woman who accepts this invitation. Note the result:

First letter.
Dear Mrs. Pinkham:—
"For eight years I have suffered something terrible every month. The pains are excruciating and I can hardly stand them. My doctor says I have a severe female trouble, and I must go through an operation if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do. I hope you can relieve me."
—Mrs. Mary Dimmick, 20th and E. Capitol Streets, Washington, D. C.

Second letter.
Dear Mrs. Pinkham:—
"After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimonial, that others may know their value and what you have done for me."
—Mrs. Mary Dimmick, 20th and E. Capitol Streets, Washington, D. C.

When a medicine has been successful in restoring to health so many women whose testimony is so unquestionable, you cannot well say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

FRENCH CRISIS AVERTED.

Clemenceau's Course Toward Church Considered Pacific.

Paris, Nov. 12.—Unless the Vatican authorities cause some radical changes in the situation, the fears of a religious crisis resulting from the enforcement, Dec. 11, of the law providing for the separation of church and state are regarded as dissipated in consequence of the middle course steered by the Clemenceau cabinet.

The extreme radicals, under Combes and Pelletan, who insist that a policy of spoliation and persecution be inaugurated Dec. 11, have been appeased by the announcement that all church property not claimed by cultural associations on the date will pass under the control of the state for attribution to the communes at the end of the ensuing year.

On the other hand the churches in the interior, who remain at the disposition of the clergy, and a road for retreat is left open to the Vatican by the admission of the possibility that church property can be state decree be granted to associations formed before Dec. 11, 1907.

Chinese Railways.

A telegram dated September 30, from Peking, announces the formal opening of the first section of the railway from Peking to Kalgou, which, when it is
